

SASHA KZN Trans Training

31 March 2009

Caroline was invited to do some training at the Durban branch of the South African Sexual Health Association (SASHA). The presentation was started off with a screening of Robert Hamblin's digital story which is part of the Transformations Digital Story DVD.

The rest of the presentation included an introduction to Gender Dynamix and the work that we do. It was then followed by an introduction to transgenderism, including terms and definitions and some do's and don'ts. The process of transitioning was explained and the problems faced by transgender people in the process were highlighted.
